

**Ink, Heart & Soul – our company philosophy expresses what our customers experience every day. We produce individual ink solutions in close cooperation with our business partners. We are steeped in tradition, yet international and modern. With currently 5000 staff we supply and support customers anywhere in the world. As a family business with a professional management we offer quick decision making, great scope for responsibility, a strong corporate culture and opportunities for professional growth. If you would also like to be involved with Heart & Soul, then you should join us.**

## **Head of Technology Development EMEA (m/f)**

### Narrow Web, UV

This is an outstanding opportunity to join a market leader, and to make a difference in the dynamic world of Packaging. Right now, Siegwerk is looking for a talented Technology professional to join one of our key Business Units in a regional leadership position.

To succeed in this role, you will need a **strong Chemicals background, with a particular focus on UV Technology as it relates to Inks or coatings**. You should have experience in the Packaging industry generally, and in the area of Labels/ Narrow Web specifically.

#### **Your main responsibilities will be to:**

- Take the lead in technical development projects across the EMEA region
- Design and execute technical action plans
- Manage sourcing activity in relation to savings, alternatives, samples and prioritization
- Partner with customers to develop and deliver tailored solutions
- Manage a small team of Technologists and Sourcing professionals

Internally, you will be collaborating closely with our SCM, Sales and Technology teams to provide a cohesive and smooth customer interface for everything from taking a Technical brief, to product development and launches, and customer trials.

Naturally, you will have a relevant Chemistry qualification, and industry experience. We would also expect a high level of energy, passion, and excellent communication skills.

In return, though, we can offer you access to world class Technology, Systems and Processes – everything you need to excel. We also provide individual training programs, and a truly international working environment. Join us and get the best of both worlds – a company that thinks like a global leader, but acts like a family!

#### **Qualifications**

- successful completion of studies in chemistry
- several years of relevant professional experience within the Packaging industry with focus on UV Technology
- excellent team worker, autonomous, rigorous and well organised
- fluent in English is a must, good knowledge in German
